

Pivot Park

Focused on biopharmaceutical sciences

Leading in immunology, oncology and cell therapy

Pivot Park is an increasingly popular location for companies focusing on biopharmaceuticals and biotech. By investing in building a world-class biopharmaceutical R&D infrastructure, we create the perfect conditions for new companies, young companies and established companies to grow.

The companies at Pivot Park work in a variety of therapeutic areas. These areas range from small molecule development to complex antibody structures; from vaccines and viruses to immunology, oncology, cell and gene therapy.

pivotpark

Europe's foremost biopharmaceutical campus

A unique ecosystem of over 60 biopharmaceutical companies

From start-ups, scale-ups to established companies

At the time of writing, Pivot Park was home to the following companies:

 <p>3D-PharmXchange Clinical Contract research project management</p>	 <p>Acerta Pharma Developing novel targeted therapeutics for the treatment of cancer</p>	 <p>ACRO Biosystems Group Manufacturer of recombinant proteins and other critical reagents to support the development of target therapeutics, vaccines, and diagnostics</p>	 <p>Agidens A reliable validation and compliance partner for GMP/GLP/ISO-projects</p>	 <p>Agilent Provides analytical lab instrumentation, software, consumables, lab supplies, and laboratory services</p>
 <p>Ardena Delivering drug development, manufacturing and bio-analysis service globally</p>	 <p>Arnold & Siedsma Specialist in protecting your intellectual property</p>	 <p>BG.legal A full-service law firm</p>	 <p>BioAxis Research Collaborative research to identify leads and develop drug candidates</p>	 <p>BioConnection Development and production of injectable (bio)pharmaceutical products</p>
 <p>Cell4Pharma Provides patented diagnostic, toxicology technologies and consulting services.</p>	 <p>Certara Drug Discovery and Development consultants in bio-simulation</p>	 <p>Citryll Medicines against auto-immune diseases targeting the pathobiology of Neutrophil extracellular traps</p>	 <p>Cognizant Information technology services and consulting company</p>	 <p>Crossfire Oncology Next generation kinase inhibitor company to treat acquired drug resistance using the EPriL platform</p>
 <p>Derks & Derks Delivering recruitment & development solutions; specialist in Life Sciences and Healthcare</p>	 <p>De Vries & Metman Protecting innovation is our passion</p>	 <p>Eurofins Spinnovation Analytical Centre of Excellence for Solid State, NMR</p>	 <p>Galileo Dynamics With our cell culture automation platform, our mission is to reinvent the lab</p>	 <p>Genase Therapeutics Small molecule inhibitor against a metabolic target</p>

 <p>Glycomscan Analytical services by mass preclinical spectrometry</p>	 <p>Glycostem Stemcell derived Natural Killer cell immunotherapy against cancer (AML and MM)</p>	 <p>HAN University of Applied Sciences Arnhem & Nijmegen</p>	 <p>Immagine Novel Immune therapeutics for cancer by a platform-based target selection</p>	 <p>ImmunoPrecise Antibodies Therapeutic antibody discovery services and production</p>
 <p>InProcess-LSP Nanoflowsizer equipment for inline and real time nanoparticle characterization in flow</p>	 <p>Lead Pharma Discovering, designing and developing small-molecule therapies to treat autoimmune diseases and cancer.</p>	 <p>Mercurna Precision Medicine for kidney disease based on mRNA therapy</p>	 <p>MSD Animal Health Prevention and treatment of (emerging) diseases that threaten people and animals</p>	 <p>NanoServe Developing orally available insulin formulations</p>
 <p>Nelisca The accountant for small and medium size Life Science enterprises</p>	 <p>Oncolines Bring Novel Therapies to the Right Patient Population Faster with precision medicine</p>	 <p>Organon We envision a better and healthier every day for every woman</p>	 <p>Osteo-Pharma Novel products for orthopedic and dental applications with OsteoActivatorTM-technology</p>	 <p>Perkin Elmer One Source Lab services: a complete suite of solutions for today's labs need</p>
 <p>Pharming Protein replacement therapies and precision medicines for rare diseases and unmet medical needs</p>	 <p>PharmSupport Provides expertise in the field of quality and compliance</p>	 <p>Pivot Park Screening Centre Early Drug Discovery: Assay development, ultra-High Throughput Screening, Hit2Lead</p>	 <p>Precision Medicine Lab Leveraging genome-scale datasets, hospital big data & machine learning to improve cancer patient outcomes</p>	 <p>QbD Group Supports companies throughout the entire product lifecycle, from idea to patient</p>
 <p>QTM BioSciences All-in-one service partner to quantify and predict subcellular distribution of your drug candidate or delivery platform</p>	 <p>Rescop Provides a complete portfolio of consultancy services and software products that enable businesses to achieve GxP compliance</p>	 <p>Ribopro mRNA platform technology and production</p>	 <p>Sairopa Clinical stage company that develops novel treatments for cancer</p>	 <p>Starodub Offers support for (bio)pharmaceuticals and medical devices throughout their lifecycle</p>

Sublin
Needle free Insuline with (sublingual) formulations combining fast and slow acting release

Synaffix
Antibody-drug conjugate (ADC) technologies for targeted delivery

Talentmark
Delivers a full spectrum recruitment service for the Life Sciences sector

Thema Group
Life Science recruitment - Search.Find.Match. Together

TTxD
Trained Therapeutix Discovery (regulating trained immunity with novel nanobiologic medicines)

Van Iersel Luchtman
The law firm for the entrepreneur

VILS Netherlands
We design and build your facility

YER
Specialises in recruitment, Learning & Development, Talent Development Programs (TDP), and international hiring

● Product Development ● Contract research organisation ● Contract manufacturing organisation ● Supporting pharma services

Pivot Park is the foremost campus for biopharmaceutical innovation and discovery in Europe today.

Isn't it time you joined us?
