

QbD Group
Supports companies throughout the entire product lifecycle, from idea to patient

QTM BioSciences
All-in-one service partner to quantify and predict subcellular distribution of your drug candidate or delivery platform

Rescop
Provides a complete portfolio of consultancy services and software products that enable businesses to achieve GxP compliance

RIBOPRO

mRNA platform technology and production

Sairopa
Clinical stage company that develops novel treatments for cancer

STANT

STANT
Develops innovative STING pathway inhibitors to treat autoimmune, inflammatory, cardiovascular, metabolic, and neurodegenerative diseases

Starodub
Offers support for (bio)pharmaceuticals and medical devices throughout their lifecycle

Sublin
Needle free Insuline with (sublingual) formulations combining fast and slow acting release

Synaffix
Antibody-drug conjugate (ADC) technologies for targeted delivery

Talentmark
Delivers a full spectrum recruitment service for the Life Sciences sector

TTxD
Trained Therapeutix Discovery (regulating trained immunity with novel nanobiologic medicines)

VILS Netherlands
We design and build your facility

VKZ
Focuses on both management and economics of real estate and area development projects

YER
Specialises in recruitment, Learning & Development, Talent Development Programs (TDP), and international hiring

Yxion
A consultancy firm specialised in cGxP and ISO 13485 guidelines

● Product Development ● Contract research organisation ● Contract manufacturing organisation ● Supporting pharma services

Pivot Park is the foremost campus for biopharmaceutical innovation and discovery in Europe today.

Isn't it time you joined us?

pivotpark

Europe's foremost biopharmaceutical campus

Kloosterstraat 9, 5349 AB Oss, the Netherlands, +31 (0)412 84 60 10, info@pivotpark.com, www.pivotpark.com

Version 03-2026

Pivot Park

Focused on biopharmaceutical sciences

Leading in immunology, oncology and cell therapy

Pivot Park is an increasingly popular location for companies focusing on biopharmaceuticals and biotech. By investing in building a world-class biopharmaceutical R&D infrastructure, we create the perfect conditions for new companies, young companies and established companies to grow.

The companies at Pivot Park work in a variety of therapeutic areas. These areas range from small molecule development to complex antibody structures; from vaccines and viruses to immunology, oncology, cell and gene therapy.

pivotpark

Europe's foremost biopharmaceutical campus

A unique ecosystem of diverse biopharmaceutical companies

From start-ups, scale-ups to established companies

At the time of writing, Pivot Park was home to the following companies:

 <p>3D-PharmXchange Clinical Contract research project management</p>	 <p>Acerta Pharma Developing novel targeted therapeutics for the treatment of cancer</p>	 <p>Agidens A reliable validation and compliance partner for GMP/GLP/ISO-projects</p>	 <p>Agilent Provides analytical lab instrumentation, software, consumables, lab supplies, and laboratory services</p>	 <p>Ardena Delivering drug development, manufacturing and bio-analysis service globally</p>	 <p>GlycoMScan Analytical services by mass preclinical spectrometry</p>	 <p>Glycostem Therapeutics Stemcell derived Natural Killer cell immunotherapy against cancer (AML and MM)</p>	 <p>HAN University of Applied Sciences Arnhem & Nijmegen</p>	 <p>Hettich Benelux A leading manufacturer and distributor of climate and laboratory equipment</p>	 <p>Inotiv Delivers a broad array of nonclinical and analytical services from discovery through clinical development</p>
 <p>Arnold & Siedsma Specialist in protecting your intellectual property</p>	 <p>AVS Bio Therapeutic antibody discovery services and production</p>	 <p>BioConnection Development and production of injectable (bio)pharmaceutical products</p>	 <p>Biolumnis Provides expertise in the field of quality and compliance</p>	 <p>Cantoni Therapeutics Dedicated to the discovery and development of best-in-class small molecule inhibitors of the enzyme NNMT</p>	 <p>InProcess-LSP Nanoflowsizer equipment for inline and real time nanoparticle characterization in flow</p>	 <p>Italfarmaco Develops, manufactures & markets pharmaceuticals, focusing on innovation, specialty diseases & sustainable growth</p>	 <p>Kembit Delivers tailored IT solutions, combining innovation with sustainability and efficiency</p>	 <p>Mercurna Precision Medicine for kidney disease based on mRNA therapy</p>	 <p>MSD Animal Health Prevention and treatment of (emerging) diseases that threaten people and animals</p>
 <p>Cell4Pharma Provides patented diagnostic, toxicology technologies and consulting services</p>	 <p>Certara Drug Discovery and Development consultants in bio-simulation</p>	 <p>Citryll Medicines against auto-immune diseases targeting the pathobiology of Neutrophil extracellular traps</p>	 <p>CP Services Specialist in process, validation, calibration, and maintenance within a cleanroom or laboratory environment</p>	 <p>Crossfire Oncology Next generation kinase inhibitor company to treat acquired drug resistance using the EPriL platform</p>	 <p>NanoServe Developing orally available insulin formulations</p>	 <p>Nelisca The accountant for small and medium size Life Science enterprises</p>	 <p>Normec Advipro Provides training programs in regulatory affairs, quality assurance, and compliance</p>	 <p>NovoSere Provides an integrated team of experts with deep knowledge and hands-on experience in CMC</p>	 <p>Oncolines Bring Novel Therapies to the Right Patient Population Faster with precision medicine</p>
 <p>Derks & Derks Delivering recruitment & development solutions; specialist in Life Sciences and Healthcare</p>	 <p>Eurofins Spinnovation Analytical Centre of Excellence for Solid State, NMR</p>	 <p>Flindr therapeutics Novel Immune therapeutics for cancer by a platform-based target selection</p>	 <p>Flowid Flowid is expert in developing your chemical processes in flow.</p>	 <p>Galileo Dynamics With our cell culture automation platform, our mission is to reinvent the lab</p>	 <p>Organon We envision a better and healthier every day for every woman</p>	 <p>Osteo-Pharma Novel products for orthopedic and dental applications with OsteoActivatorTM-technology</p>	 <p>PerkinElmer OnceSource Lab services: a complete suite of solutions for today's labs need</p>	 <p>Pivot Incubator Go-to hub for early-stage biopharmaceutical startups with R&D facilities, entrepreneurial support, and a vibrant pharma ecosystem</p>	 <p>Precision Medicine Lab Leveraging genome-scale datasets, hospital big data & machine learning to improve cancer patient outcomes</p>
